

## VOLUNTEER OPPORTUNITIES

New Avenues offer supported volunteer opportunities for both middle and high school students to work with children who have special needs and various learning abilities.

### Payment and Funding Options

Our program accepts private pay, Family Support Services (FSS) funding through NEON, eligible waiver funding, and district-funded placements. We are happy to work with families and school districts to coordinate payment arrangements.

## ABOUT NEW AVENUES TO INDEPENDENCE

A group of dedicated parents founded New Avenues to Independence as the Parents Volunteer Association in 1952 to provide educational, vocational and recreational experiences for children with disabilities. The Parents Volunteer Association continued to grow, purchasing eight homes and expanding services to include community-based care, transitional respite, children's programs, therapies, nursing support and recreational opportunities throughout Northeast Ohio. In 2000, the Parents Volunteer Association changed its name to New Avenues to Independence. Today, New Avenues provides a continuum of services for children and adults including Summer Camp, vocational training, recreational activities, therapy services and residential programming throughout NE Ohio.
