## ABOUT NEW AVENUES TO INDEPENDENCE

The Lake County Board of Developmental Disabilities has contracted with New Avenues to Independence to operate our Summer Camp for over 20 years.

New Avenues is a non-profit organization offering services and programs to individuals with disabilities. In 1952, the agency was formed by a group of parents concerned that no programs existed for their children with special needs. Today, New Avenues provides a continuum of services for both children and adults. These include Summer Camp with Extended School Year services, vocational training, recreational activities, therapy services, and residential programs.
